

The **South Australian Integrated Land Information System (SAILIS)** offers an extensive land information product suite online at www.sailis.lssa.com.au. Products can be searched through four (4) consolidated product menu options:

- Land Search
- Image Search
- Dealing Search
- General Search

When searching for a product, in most instances you can find the property or land information by entering the **Address, Title, Plan and Parcel Number** or **Valuation Number**.

In the **Address** search, the Street field is the only mandatory field. Wildcards (*) can be used in Address searching if you are unsure of the street name spelling, for example Chelt* for Cheltenham. The Street type (for example Road, Street, Avenue) is not required.

The **Title** search can be used if you have the CT (Certificate of Title), CL (Crown Lease) or CR (Crown Record) Volume and Folio reference.

The **Plan/Parcel** search is available if you have the property Plan Number. To refine the search, you can also enter the Plan Type, Parcel Type and Parcel Number.

The **Valuation** search is for entering the Valuation Number, also referred to as an Assessment Number. The Valuation Number is a 10-digit number that can be found on the SA Water notice, Council rates or ESL Notice for the property.

Products and search results will display on screen to your desktop with an option to download a PDF version to save, email or print. The "Download as a PDF" option will display in the top right corner of the screen.

Account Customers also have the option of downloading large search results in a CSV File format to filter and sort data, with bulk products delivered in a ZIP file to your screen.

Should you have further enquiries, please contact Land Services SA.
