TATS HISTORICAL SEARCH ON-LINE

As part of Land Services Group's commitment to improving service delivery, we will be introducing an on-line TATS Historical Search on 2 August 2000. The introduction of this enquiry follows consultation with industry clients and will enable remote users to access this information in their office.

This service will replace the present requirement to collect prints of historical searches from the Document Collection Room or LOTS Enquiry Counter. A Historical Search enquiry will generate an immediate screen display of the requested data at the terminal from which the order is placed. Clients can then print the search if required.

For clients attending our office TATS Historical Searches will still be displayed and printed from either the Document Collection Room (adjacent the Settlements Room) or the Ground Floor Self-Help area.

The enquiry will continue to be available to clients at no cost.

The new system will operate as follows:

1. The enquiry will retain its present code (TFOHIS").
2. The volume and folio number is entered. The field for the region number will not appear on the new screen, as this is no longer required.
3. The screen display will show the same information that appears on the current Historical Search.
4. **The most recent transactions will be displayed first**, with a prompt to proceed to further screens for earlier transactions.
5. A screen message "no more details" will indicate when the earliest record has been reached.

If you require further information or would like to provide feedback on this service please contact our Client Advice staff on telephone 8226 3983.

ALAN J. SHARMAN
REGISTRAR-GENERAL
