Cyber Security Awareness Month

2024 Cyber Security Awareness Month

As today marks the start of Cyber Security Awareness Month, I would like to take this opportunity to remind everyone that *cyber security is everyone's business*.

In today's digital age, the importance of safeguarding our information and systems cannot be overstated.

I encourage all members of the property industry to take proactive steps in enhancing their cybersecurity practices.

To assist you, valuable resources and guidelines are available on the government's official cybersecurity page: [Cyber Security Resources](#).

Let's work together to create a more secure and resilient industry.

Debra Secombe
