Model Operating Requirements Consultation Version 7

ARNECC has now released the Model Operating Requirements Consultation Draft 7.2 (and Explanatory Notes), including interoperability updates, which is now available for feedback – see: [Model Operating Requirements - ARNECC](#)

The proposed updates to the Model Operating Requirements (MOR) are an important component for establishing the interoperability framework, building from earlier rounds of consultation.

Considerable work has been done by ARNECC to update the MOR to accommodate interoperability, including seeking industry input and liaising with the interoperability program team.

ARNECC has carefully considered stakeholder comments received during the consultation process. Responses to those comments (Feedback Table addressing stakeholder comments on MOR Consultation Draft 7.1) are available at: [Feedback - ARNECC](#)

Please send any feedback on MOR Consultation Draft 7.2 **by 5pm AEST on Tuesday 31 October 2023** to chair@arnecc.gov.au.

Thank you for your continued interest and support to further enhance the effective regulation of the electronic conveyancing environment.
