Issue 391

## Replacement of Electronic Plan Lodgement System

---

Following on from [CIB 387](#), we wish to advise that the date for release of the new Digital Plan Lodgement (DPL) system has been revised and is now currently scheduled for May 2024.

In the lead up to the release of DPL, over the next few months, the following changes will be observed within SAILIS:

- In the Invoice Search and Transaction Search screens there will be a new Type option of “DPL Lodgement”.
- In the Product Transaction History report (AM019) there will be a new Type option of “DPL Lodgement”.
- A new DPL logo will be displayed on the CAD and PPG validation reports.
- Organisation administrators will observe new DPL related fields on the Organisation Details screen, although they will be non-active.
- New users and organisations will be created where they don’t already exist in SAILIS. LSSA will contact organisations individually before DPL go-live.

A set of Frequently Asked Questions relating to DPL can be found [here](#).

Once the release date of the new DPL system is confirmed, Industry will be advised of the timing of the changeover to DPL and the impact on EPL access during implementation of the new system.

In the meantime, if you have any queries regarding the replacement of EPL, or any matters raised in this CIB, please direct your enquiry via e-mail [dplenquiries@landservices.com.au](mailto:dplenquiries@landservices.com.au)
